CUSTOM STAINLESS STEEL FLEXIBLE HOSE ASSEMBLIES

The Macomb Group is now able to handle your custom stainless steel flexible hose requirements.

- Welded metal hose from ½" – 6". Please call for larger diameters.
- Custom lengths to meet your metal hose specification.
- Standard and custom end connections welded to your metal hose assembly.
- Temperature range from -320F to 1500 F.
- Pressure range up to 5800 psi.
- Good for many applications including: Chemical metal hoses, pump connectors, Steam hose, high temperature hoses, natural gas hoses, etc.

Reasons to choose Metal Hose

1. Longer service life.
2. Chemical Resistant.
3. Greater capacity for pressure.
4. Increased temperature capacity of media.
5. Acceptance of thermal expansion.
6. Absorption of pump vibration and noise.
7. Reduction in pipe stress due to minor misalignment and pressure variations.
8. Reduction of stress on pumps and compressor housings, reducing long term operation and maintenance costs.

For more information regarding custom fabricated products, please contact the hose division below.
