

QUIET THE STORM!

EASY INSTALLATION AND
PERMANENTLY LOW OPERATING
COSTS ARE MOVING IN!

WHAT MAKES SHIELD™ THE NEW
BEST-IN-CLASS IN “GREEN” WATER HEATING
FOR YOU AND YOUR CUSTOMERS?

SHIELD features up to 96% thermal efficiency and inputs up to 500,000 Btu/hr. The stainless steel heat transfer system eliminates lime scale inside the tank and will never affect performance. The result is **lifetime efficiency**...operating costs that stay low and save your customers money year after year!

SHIELD is so quiet you'll barely hear it, and you'll **never** hear noise complaints from customers.

SHIELD has an advanced **SMART CONTROL™**, with a 2-line, 16-character LCD display of setup, system status and diagnostic data in words, not codes.

SHIELD offers six options for traditional and direct venting. All configurations allow PVC or CPVC pipe runs up to 100 equivalent feet.

SHIELD delivers exceptional **80% drawdown** capacity in 100 or 125-gallon tanks for high-demand applications.

**SHIELD...BETTER TECHNOLOGY FOR
THE BEST COMMERCIAL WATER HEATING!**
