

# Boiler technology nobody else can touch

SYNC™ boilers deliver 1.0 , 1.3 or 1.5 million Btu/hr, thermal efficiency up to 95%, fully modulating operation with up to 10:1 turndown, and new technology that puts total operational control at your fingertips!

SMART TOUCH™ makes it easier than ever to set up and monitor a perfectly synchronized “green” system, and provides a complete onboard database of real-time status information and performance history.

SYNC™ brings space-saving footprints, a direct-vent design for intake/exhaust runs up to 100 feet, and a built-in cascading sequencer for up to 8 boilers, delivering total control of up to 12 million Btu/hr in virtually any commercial application.

**Lochinvar keeps you on the  
leading edge of green performance!**
