

# from **FABRICATION** to **INSTALLATION**

Integral to our prompt response is our warehousing capability for just-in-time delivery of vital insulation components and systems. The Macomb Group's 350,000 square foot Sterling Heights warehouse along with the combined warehousing

resources of R.L. Bondy offer ample material storage capacity. Preplanned material delivery ensures better productivity and avoids material loss and damage. Additionally, we are able to utilize on-site storage for heavy equipment and other supplies required on a daily basis. Owning and operating our own equipment dramatically reduces our reliance on outside suppliers.

Our state-of-the-art dedicated fabrication shop is staffed by industry experts who produce specialty plastic and metal insulation systems, and custom-fit them as required. In doing so, R.L. Bondy maintains complete control over both production quality and schedule to ensure efficiency and streamline even the most demanding assignment.

With over 100 years of combined experience, R.L. Bondy has delivered landmark projects across the entire country and industrial spectrum.

We have built the staff, the systems and the equipment to work in a broad range of areas:

- Underground Utilities
- Chemical Facilities
- Water Treatment
- Auto Assembly
- Auto Paint & Finishes
- Storage Tanks/Equipment
- Peak Power Units
- High/Low Pressure
- Boilers & Equipment
- Sound & Attenuation
- Blast Furnaces
- Steel Mills & Processing
- Continuous Casters
- Refineries
- Pipe Lines (Gas & Oil)
- Power Generation
- Power Distribution
- Incinerators
- Process Temperature Control
- Pipe, Duct & Equipment
- Low Temp Nitrogen & Oxygen Facilities
- Office Centers
- Health Care Facilities
- Theaters
- Stadiums
- Casinos
- Schools
- Commercial
